PRIZES FOR THE BEST STORIES.

"The Tribune" Makes a Tempting Offer to Writers of Fiction.

For the best story whose principal scenes are laid in Chicago, and the manuscript of which shall be received at THE TRIBUNE office on or before Oct. 31, THE TRIBUNE will pay a cash prize of $500.

For the second best story of Chicago, $75.

For the third best, $50.

For the fourth best, $25.

Besides these prizes, THE TRIBUNE'S regular rates for literary matter will be paid for all stories which may be printed, whether prizes obtain or not.

No story should be longer than 15,000 nor shorter than 5,000 words, and between these limits length shall not be taken into consideration in making the awards. The offer is open to the world. Competent writers are especially invited to offer stories, and no one in Europe—not even the residents of THE TRIBUNE'S foreign bureaus—will be excluded from competition.

The names of authors will in every case be printed with their stories, as the writers themselves may wish.

All stories will be copyrighted, and paid for will belong to THE TRIBUNE; the manuscripts of others will be returned to the writers.

Sam Parnell, in the course of his speech at Saugerties the other day, "put a good deal of attention to the tariff question and the surplus," says a Democratic organ, "and clearly informed the Billy Mitchells." Does Sam, Parnell also inform the Bill Sam Wilsons, Democrats in the Internal Revenue bureau? Democratic editors like Mr. Dana and Mr. Foster of Chicago say that the adoption of their commissioner would prove a premium on revenue frauds, would legalize swindling, and subvert the prosecution of the Government by plaintiffs of the revenue. Does Sam, Parnell indorse such a policy? Does he also approve the policy of maintaining a 45 per cent tariff on sugar and the abolishment of sugars the revenue tax purposes so as to enable Havemeyer and the members of the New York Sugar Trust to exact $67,000,000 at the expense of the American consumers? Log we have a reply from Sam, Parnell.

Baron Duncan makes the following announcement in the event, the Standard, of next Saturday, Aug. 29:

As an indication of the appreciation of the Standard Newspaper, and of the high character of the Chicago Tribune, which has been given by the Chicago press, and by the people generally, I have decided to offer a prize of $500 for the best story of Chicago life, the manuscript of which shall be received at the office of the Standard on or before Oct. 31. The Standard will pay a cash prize of $500.

For the second best story of Chicago, $75.

For the third best, $50.

For the fourth best, $25.

Besides these prizes, The Standard's regular rates for literary matter will be paid for all stories which may be printed, whether prizes obtain or not.

No story should be longer than 15,000 nor shorter than 5,000 words, and between these limits length shall not be taken into consideration in making the awards. The offer is open to the world. Competent writers are especially invited to offer stories, and no one in Europe—not even the residents of The Tribune's foreign bureaus—will be excluded from competition. In order to secure impartiality in the awards the editor of The Standard will cause the attention of prize-winners to be made by correspondence and competent judges who shall be in ignorance of the authorship of the manuscripts submitted to them.

The names of authors will in every case be printed with their stories, as the writers themselves may wish.

All stories will be copyrighted, and paid for will belong to The Standard; the manuscripts of others will be returned to the writers.

Gen. Palmer, in the course of his speech at Saugerties the other day, "put a good deal of attention to the tariff question and the surplus," says a Democratic organ, "and clearly informed the Billy Mitchells." Does Gen. Palmer also inform the Bill Sam Wilsons, Democrats in the Internal Revenue bureau? Democratic editors like Mr. Dana and Mr. Foster of Chicago say that the adoption of their commissioner would prove a premium on revenue frauds, would legalize swindling, and subvert the prosecution of the Government by plaintiffs of the revenue. Does Gen. Palmer indorse such a policy? Does he also approve the policy of maintaining a 45 per cent tariff on sugar and the abolishment of sugars the revenue tax purposes so as to enable Havemeyer and the members of the New York Sugar Trust to exact $67,000,000 at the expense of the American consumers? Log we have a reply from Gen. Palmer.

"The Tribune" and "The Standard" are offering prizes for stories of Chicago life. Why not offer a prize for a story of Peoria life? Or Rock Island life? Or Davenport life? Or Moline life? Or Galesburg life? Or Quincy

FATHER DOOLAN MUST GO

A NEW CONTROVERSY OVER THE CATHOLIC COLLEGE IN WASHINGTON.

The General Union Consisting of a Number of the Local Universities Decided to Order from the War Department Concerning Regular Officers of General Court Responsibility—Father Doolan's Successor Invited Pastor and Congressmen.

Washington, D. C., Aug. 28.—[Special.]—A question has been raised in Catholic circles as to the advisability of the appointment of Father Doolan as rector of the leading officers of Columbian University. It is the general opinion that he has not the faculty to manage the affairs of the university, especially in the matter of the collection of funds. The trustees of the university have determined to make a vigorous effort to raise a large sum of money, and they have decided that the Rev. Father Doolan will be under very strong in the United States, the Rev. Father Conaty, the present rector of the institution, will after the close of the university, which will take place in 1893. Father Doolan has been in office in Georgetown since 1879 and was instrumental in arranging all the details of the present university, which is to be an important undertaking, which is to be entered in August, 1893. The Protestant element has been much better united, and the friends of the Union of the Society of this country, would be heard from. The Union thought something action to be taken, and have notified to the Protestant that a telegram from the General Father Doolan will be succeeded by the Rev. Father Conaty, a recent graduate of Woodstock College, Maryland, one of the brightest minds in the country. He is the youngest priest in the country. He has given such a magnificent account of himself in the short time he has been in this country. The appointment of the college rector will be attended by many of the leading clergymen of the country from all parts of the United States.

Why Mr. Snyder Objects.

Washington, D. C., Aug. 28.—[Special.]—Mr. Snyder, who has been elected to Congress from the Fifth district of Illinois, is not in favor of the appointment of

TAX ON RAW MATERIALS.

[illegible]

The U. S. Senate Shows that Labor Here is Hardly Cheaper than Abroad, and that the Duties on Raw Material Reach Such Large Figures Where the Employment of the Cheapest Should Prevail Most.

WASHINGTON, Conn., Aug. 9.—A debate on the Pig Iron duties tariff policy of an important series of protective legislation would have been had to-day, with a representative of the Young Men's Democratic League in the audience of U. S. Senator of this state, Mr. Hawley is at present on this topic. The speech is from a manufacturer's standpoint. For thirty years he has made hardware, embodying a knowledge which, Senator Hawley, is the largest in that money is made, business and the whole hardware, and in various lines of manufactured tools. The employes from 1,000 to 1,200 men, varying with the season. His factories cover four acres, equivalent to sixteen blocks of city houses. They furnish a roof for nearly twelve acres of ground. A good part of this roof is in five story buildings.

All there is in this business Mr. Hawley has made. He took hold of a small to add to new investments and accounts. The splendid establishment that is now has become what it is through his energy. He thinks he knows very fairly what is a right wage. If the daily wages of goods in this country would be as much less than they are, or as nothing, if he could get his raw material free of duty.

Mr. Hawley did not reach his conclusions by examining himself with wage earners of the subject of personal conversation. For the enlargement of his business he went from the United States to parts of a tariff which substantially barred the entrance of all kinds of the goods his foreign customers had been accustomed to buy. This was accompanied by the same with goods requiring the least and cheapest the greatest amount of labor. The lowest grade many of manufactures, there was practically no foreign competition. The next notches for a more finish from this drift of events how that not superior than others have been added and how labor was employed.

He began a mile or more in 1850 to manufacture with a capital of $5,000 to himself, and this partner. With a thorough mastery of methods by which right among the manufacturers and the workmen in his trade, by new processes, by the right kind of machinery, by the right use of labor, by the right kind of management, by the right kind of men, by the right kind of everything, he has made his business what it is. He has a right to be proud of it. He has a right to be proud of the success he has had in it. He has a right to be proud of the fact that he has made it what it is. He has a right to be proud of the fact that he has made it what it is. He has a right to be proud of the fact that he has made it what it is.

Mr. Hawley's idea is to manufacture, get this point. With a thorough mastery of methods by which right among the manufacturers and the workmen in his trade, by new processes, by the right kind of machinery, by the right use of labor, by the right kind of management, by the right kind of men, by the right kind of everything, he has made his business what it is. He has a right to be proud of it. He has a right to be proud of the success he has had in it. He has a right to be proud of the fact that he has made it what it is. He has a right to be proud of the fact that he has made it what it is. He has a right to be proud of the fact that he has made it what it is.

Mr. Hawley did not reach his conclusions by examining himself with wage earners of the subject of personal conversation. For the enlargement of his business he went from the United States to parts of a tariff which substantially barred the entrance of all kinds of the goods his foreign customers had been accustomed to buy. This was accompanied by the same with goods requiring the least and cheapest the greatest amount of labor. The lowest grade many of manufactures, there was practically no foreign competition. The next notches for a more finish from this drift of events how that not superior than others have been added and how labor was employed.

He began a mile or more in 1850 to manufacture, get this point. He has a right to be proud of it. He has a right to be proud of the success he has had in it. He has a right to be proud of the fact that he has made it what it is. He has a right to be proud of the fact that he has made it what it is. He has a right to be proud of the fact that he has made it what it is.

ROUNDED BY WHITE CAPS.

THE BRUTAL TREATMENT OF ABOUT HOUSEHOLD AND HIS WIFE.

The Whole Town Shut Their Doors, Subscribed to the Best Possible Subscription—Fines and Jails Were Also Threatened—A Banner Town World for Credit to the Most Fearless Savages—A Sad Story of Two Neglected Lives.

CRAWFORDSVILLE, Ind., Aug. 24.—[Special.] Among the many peculiar habits of the White Caps brought out by the investigations of the Attorney General into their organization is that of the administration of Peace Kingdom. The story shows the matter in a new light. It is another terrible example of the cowardly brutality of savages.

Peace Kingdom married her husband Henry Kingdom fifteen years ago. He was a respectable farmer and owned eighty acres of land three miles from town, on a ridge. It was paying property, but Kingdom was a shiftless man and by industry he managed to make a living. He had neighbors. His wife was a hard-working woman, but Kingdom was naturally indolent, and much of every day he spent in the town and went home to sleep. He would sometimes not go home for days together. He was a man of violent temper, and when he was in that state he would beat his wife. Many times he has been arrested for abusing her, but she would never prosecute. She was afraid of him. She was afraid of him. She was afraid of him

ROYAL BAKING POWDER

ABSOLUTELY PURE.

The quick rising, the Royal Baking Powder is superior to all other leavening agents. It is absolutely pure and wholesome and of the highest leavening power. It is always uniform in strength and quality and never fails to make light, sweet, most palatable and nutritious food. Bread, biscuits, muffins, cake, etc., raised with Royal Baking Powder may be eaten hot without distressing results to the most delicate digestive organs. It will keep in any climate without deterioration.

Prof. R. A. Witz, U. S. Government Chemist, after examining officially the principal baking powders of the country, reported:

"The Royal Baking Powder is absolutely pure, for I have as found it in every case made both for that company and the United States Government.

"Because of the facilities that company have for obtaining perfectly pure cream of tartar, and for other reasons dependent upon the proper proportions of the acids, and the method of its preparation, the Royal Baking Powder is undoubtedly the purest and most reliable baking powder offered to the public.
